# LUXE BESPOKE LIGHTING

## Where Creativity Takes Shape

Make your space a canvas of creative designs with our customisation. And if the artist in you is inspired to sketch a rare creation, we promise to bring it to life!

Our thoughtful concepts, novel techniques and incomparable craftsmanship makes each new design a visual treat. Be it clustering different designs, making height revisions and colour modifications, or altering the shape - all of these are skilfully performed by our design team.

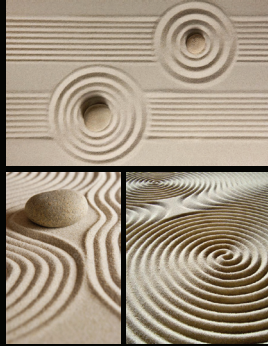

# Bespoke Designs

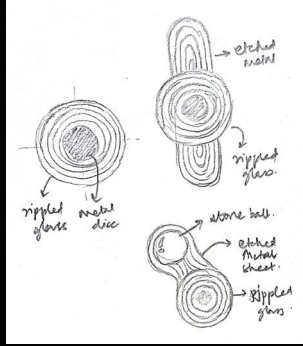

Customisation begins with in-depth mood boarding which inspires the entire design concept; these curated ideas are showcased visually through sketches, 3D or renders. The final prototype modelled from this creative process is then styled in your space.

## Dreams, Desires, Designs & Everything In Between

Embrace the thrill of a creative process that's experimental, impressive and compliments your personal style with our customisation. Crafted to capture your whimsical thoughts and transform them into scintillating designs, our workmanship will remain a legacy that's a joy forever.

# Clustering

## Tiers, Levels & Quantity

Clustering allows you to add tiers or levels to a chandelier or pendant light, to create a new style that compliments your interiors, or club multiple quantities of your favourite design to illuminate your space.

## Melange Of Different Shapes & Styles

We let your imagination lead the way: by creating a concoction of styles, made exclusively for your space. Choose a melange that resonates with your style with our extensive collection of decorative lighting.

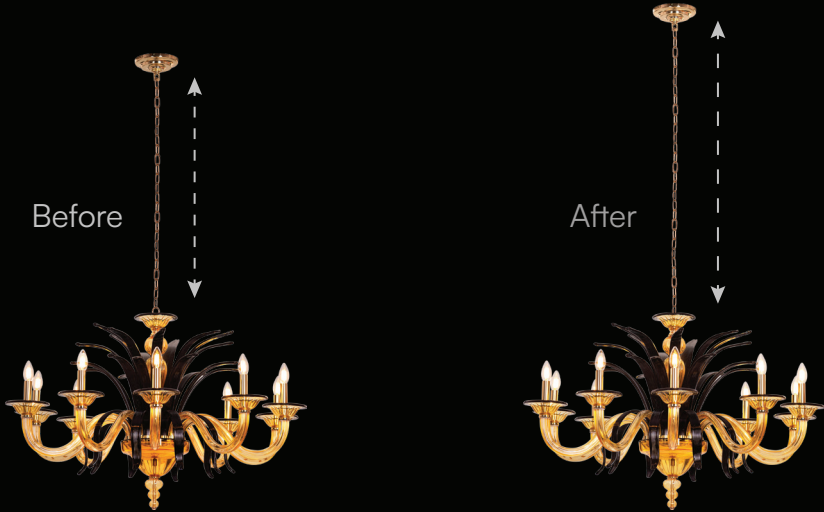

Design 1

Design 2

# Adaptation

## Alterations In Height

Enjoy the flexibility to adjust the total drop height of your chandelier or pendant light for the perfect ambience.

## Tweaks Story: Colours, Materials & Design Structures

Make your favourite design your own: with a swap of material, a different shade from the colour wheel or an alteration in the structure/frame of an existing lighting fixture.

No minimum value

## STYLING

### Design Curations That Spark Interest

When Stylists take care of every single detail, your vision takes centre stage! Our team makes sure that the curation of lighting and accessories is uniquely yours.

Their skilful composition draws out the best features of your interiors with signature selections and tasteful styling. And on special requests, we also stage these recommendations in your space for an immersive experience.

Raise A Toast Vase

Category	Turn Around Time	Remarks
Digital Consultation	5 Days	Complimentary service
Physical Staging	Please check modality with our team	Available on special request

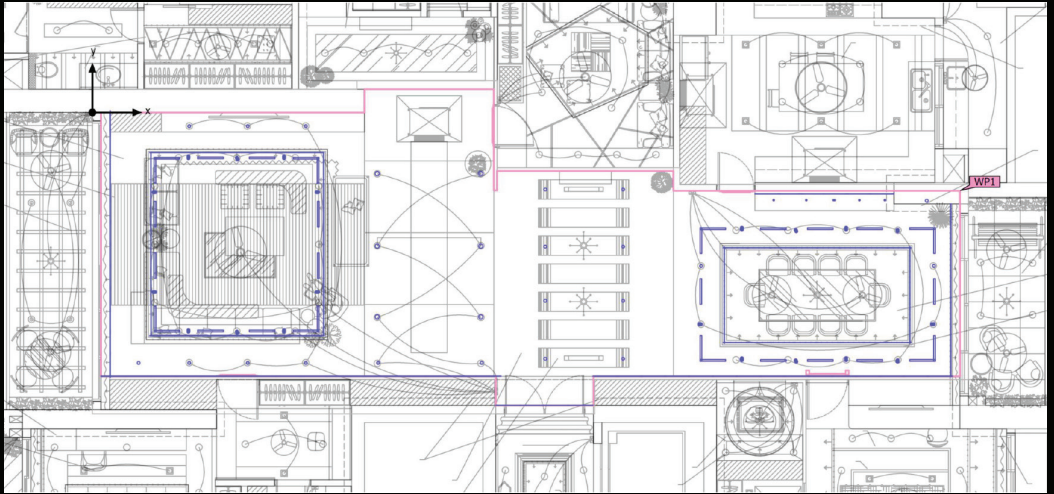

# LIGHTING CONSULTATION

Experience The Edge With Our Expertise

Lighting can slip you into comfort or inspire you to focus. When juggling to find this sweet spot of layering - accent, ambient, task and decorative lighting - our Consultants can be your guiding light. Fashion the right ambience, set the stage with mood lighting or stay futuristic with energy-efficient solutions.

Our skilful process ensures your architectural elements direct the consultation plan:  
in beam angles, lux levels, wattage and more.

### How long does the process take?

The duration varies depending on the complexity of the project, the size of the space and any specific requirements. Generally, for the smaller residential spaces(2-3 BHK), TAT is for 3-4 working days.

## Design Conversations

Still have questions or a concoction of ideas you want designed? Write them down to our experts!
