# DESIGNER FANS

Delightful in every detail, our chandelier fans have a wholesome appeal: with statement chandeliers, versatile blade spans and downrods finished in shades of gold. Or slip into a Hitchcock thriller with just a glimpse of the industrial designs finished in black that offer the ease of remote control. Welcome the dainty lightness of crystal over your dining with crystal bars, textured glass or leaf-shaped designs. Scintillating yet sustainable, their visually concealed LED assures there is a balance of aesthetics and ease.

# LAP OF LUXURY

Transform your personal space into a special one, with WT's high-end designs. Our Lap Of Luxury is an ensemble of grand proportions, vintage and tropical motifs, antique finishes and time-honoured materials. Truly versatile with precision-cut crystals layered across its central canopy, these designs suit all interiors and offer the comfort of visually concealed LED.

# CITYSCAPE BEACON

From an 8-blade design that looks like a windmill in the European countryside to a statement-worthy design with central lighting, our range of LED designer fans prove that style doesn't have to compromise. Welcome the ease of LEDs with our minimalist designs over your dining table or bring in the beautiful blend of charming crystals and built-in LEDs for a space that's radiant and breezy in equal measures. Mirror your changing moods by switching between the colour temperatures of the LEDs with the ease of a remote control.

# ODE TO THE WILLOWS

Textured in looks and smooth in touch, our extensive collection of wood-finish ceiling fans is naturally captivating. Create an outdoor oasis by hanging the mahogany or teak finish design in your patio or choose from our other finishes. Be it the pinwheel-inspired 5-blade style or a traditional 3-blade design, our Ode To The Willows has it all.

# WOOD FINISH FAN

Animate your front porch with the lived-in look of wood finish fans over your hammocks and swings. And partner the depth of those cushions in your outdoor patio with the richness of traditional wood finishes like walnut, teak and mahogany for your fan blades. Their warm tones and captivating veneer lines mimic the relaxing effect of the surrounding greenery. If you are more inclined towards lighter finishes, then the only missing piece in your seating is the casual elegance of maple. Enhance the look and mood of your homes with our snug ceiling fans.

# MODERN FANS

Our Modern range is a celebration of clean lines, streamlined blades and innovative features. Be it a crystal canopy resembling a galaxy of stars or a minimal design in black finish or white-with-gold pairing, our collection is the perfect blend of form-follows-function. Our modern LED curations promise the flexibility to switch between three colour beams with a remote control.

# CUSTOMISATIONS

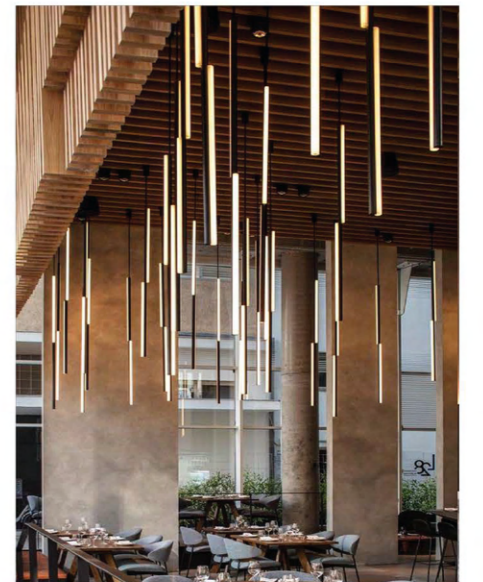

Designing Your Imagination

At The White Teak Company we want you to own your dream space with designs that are a celebration of your personal taste. That's why we use the finest crystals or high-quality

finishes when fashioning your lighting fixture.

And that's not all, our in-house customisation feature puts your imagination under spotlight. Height revisions, shape alterations, changes in dimensions and signature finishes to choose from: the possibilities are endless! We also encourage the artist in you to share your rare creations that we promise to bring to life. Be it minor tweaks or a completely new design, our team loves all creative challenges equally, and is ready when you are.
