The minimalist

INSPIRED BY THE DESIGN PHILOSOPHY OF INTENTIONAL AND PARED DOWN STYLE WHERE LESS IS MORE.

Keeping with the avant-garde modern design sensibilities and artisanal taste for reducing the silhouette to what is most beautiful; true luxury is all about finding beauty in simplicity and transience.

Between those four blessed walls is a peaceful sanctuary derived from contemporary aesthetics that are rich in details. Relaxed curves and laconic colour palette seeks to appreciate only that which is important or essential. Textured monotone walls, arched doorways, spatial light flooding through large windows and dreamy white drapes throughout the home create a feeling of vastness.

Browse thoroughly to be inspired by a mood that's rich in texture, shape and material, offering a perfect recipe for subtle splendour. Noir Et Blanc is contemporary and unhurried.

ZENO KING SIZE BED - Leathered Upholstered Bed, SS legs | ZENO BEDSIDE TABLE - PU Paint Body, Golden Stutario Marble Top SS with Black Matte Finish

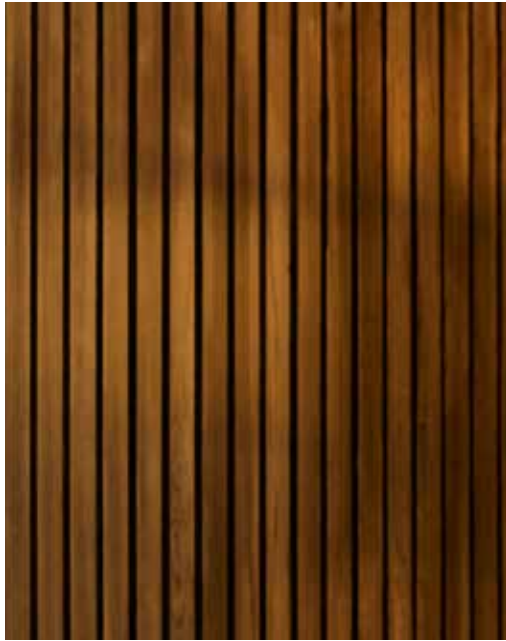

Toned down to perfection

A restrained palette and intentional simplicity allows the space to reflect a softer, quieter, less busy atmosphere. The sophisticated leather finished headboard's appeal lies in the tilted edges, defining the frame of the room. Space is shaped by the minimal geometric forms to avoid superfluous decoration.

MID-CENTURY
Prose

revival of the american 50's

A STYLE THAT PUSHED THE LIMITS OF ENGINEERING.

Bring the philosophy of good living into your own inspired interior full of 50's wonder. Rooted in functionality, clean lines, and sophistication, this style reflects the world at that time.

A rebellion against ornate design style of the 20's, Mid-Century Prose embraces a more modern, organic way of living. Play of materials like teak, metal, glass, and leather, often used in tension with each other are critical to the design ethos- wood panelled walls, unique curved shaped details and geometric lines that are angular and clean. Furnishings and art propped in this decorative style employs muted tones with pops of bolder hues to create interest. Built on durability and quality craftsmanship, every piece serves a purpose. Bringing the outdoors in, Mid Century Style remains timeless and always iconic.

ARCHITECT'S
Haven

the magnum opus

A CIVILIZATION'S ROOTS ARE NOT LIMITED TO A SINGLE LANGUAGE OR CULTURE. IT IS POSSIBLY MOST DEEPLY INGRAINED IN THE SOULS OF ITS BUILDINGS AND ARCHITECTURE.

An architect's haven is a tranquil oasis. Dreamy yet purposeful, raw yet organized, exposed yet appealing. It's truly magical how creative masterminds can bring alive a space that is engaged through light and material, with only their vision.

The Magnum Opus is a physical and spatial distillation of search for the balance between vernacular traditions and modernity, architecture and landscape, the ground and sky. Through the thoughtful collaboration of exposed concrete walls contrasting majestically with lush green outdoors, this range is a marriage of classic silhouette with contemporary designs. Tastefully layered with locally sourced and sustainable artefacts, the aesthetic plays with the idea of elasticity of time and movement.

ARCHITECT'S *Haven*

A Visual Spectacle

The design leverages the plasticity of concrete and lush green outdoors, lending it a sculptural quality. It employs classical proportions to create a modern outlook. The materials draw tactical nuances and are understated, achieving a sense of calm both around, and within it.

Affair

73 - 74

1930's, the golden age

A PRINCELY STYLE; WHERE EVERY DETAIL CONVEYS UNAPOLOGETIC MAXIMALISM.

Glitz, glamour and outlandish accents! The Regency Moderne is a maximalist style that evokes escapism. Lavishly carved frames and mirrors, sensuous crystal lamps, tasseled cushions, and vivid paintings are an intricate part of this-larger-than life decor. Inspired by the extravagant era of England's Prince Regent, the modern take on this style is a use of vibrant and vivid colors paired amusingly with signature graphic black and white.

Spotlighting this design scale is a concoction of exotic and avant-garde sculptures, handcrafted tufting of leather, brass inlay and a flair for flamboyance. Embrace more is less attitude. Romancing free spirit, extravaganza and elegant opulence is the best way to recreate the royal mystique in your own personal sanctum.
