PREMIUM KITCHEN FAUCETS  
FLORUS AND FLOREO

## FLORUS AND FLOREO KITCHEN FAUCETS

Contemporary kitchens exude their own distinct personality, mirroring the unique lifestyle and traditions of the people living there. A kitchen is said to be known as an epicenter that brings people together, where interactions and indulgence take place in various zones while performing different activities. Among the various zones in the kitchen, one of the most bustling ones is the sink center serving a range of functions like rinsing vegetables & fruits, chopping them for preparations and the most important one - cleaning the cookware and utensils. This highlights the importance of possessing a faucet on the kitchen sink that aids in the effortless cleaning of cookware and utensils all while maintaining the tidiness of the counter-top by not splashing excessive water onto other surfaces.

In line with the demand for a practical kitchen sink solution, Häfele introduces Florus and Floreo kitchen mixer faucets. Fitted with advanced aerators, these faucets create a gentle, splash-free water stream, all while maintaining a good water flow rate, that doesn't compromise on your cleaning experience.

Available in the trendy shades of ivory, mocha, truffle, obsidian, brushed nickel and chrome, these faucets go well with a variety of kitchen sinks, including Häfele's Lithos quartz sinks range and Argento sinks range. Sporting two designs - circular (Florus) and rectangle (Floreo), your options for creating the perfect kitchen sink are unlimited.

## FEATURES

### Durable Brass Material

Essentially made with brass, these faucets offer robust and durable operations that withstand the test of time. Also the antimicrobial properties of brass make them a hygienic solution.

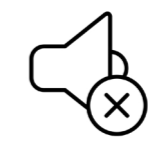

### Long Operational Life

These faucets have been tested for 70,000 cycles, guaranteeing reliable operations even with heavy duty usage. The efficient production process by double chrome and nickel coating give a long life to the faucets.

### Perfect Water Flow

The aerators included with these faucets are easy to clean and maintain, thus aiding in reducing the lime scale formation, maintaining the perfect flow of water.

### Quiet Operation

These faucets produce a gentle, splash-free water stream, reducing the amount of noise created, enabling quieter operations.
