CASTOR

RECESSED LED MODULE

An integral part of downlighters, our Castor series is a popular LED lamp which has an unmatched heat-sink structure. Complete this LED module by pairing it with our Argo reflector series for a well-lit ambience. Available in all black, all white and a classic pairing of black and gold, these reflectors easily morph across architectures. Combining the efficiency of high lamp life with dimmable and undimmable features, these architectural lights can be a great way to flood your lounge or dining space with mood lighting.

IRENE

RECESSED LED COB DOWNLIGHTER

A synonym for high quality, our Irene series can transform any corner into a visual anchor. Strikingly simple, these downlighters can be positioned to shine the recessed LED light exactly where it is needed. Modern and innovative, their smart control COBs offer the flexibility to customise your lighting desires and create an ambience of choice. Compactly designed, these lend a contrast when paired with soft illumination for a sense of drama in the dining hall or a portico. Always a great way to style your own oasis, Irene is truly the Greek goddess of peace in essence.

POLLUX

RECESSED LED COB DOWNLIGHTER

Our Pollux series features an unmatched lamp life and seamless installation, thus making them a perfect choice for commercial spaces in need of focused lighting. Their linear rectangular canopy can be positioned to shine the recessed LED light exactly where it's needed. Believed to be a good omen for sailors, the glow personifying Pollux in greek myth makes a comeback with these gleaming downlighters. Showcasing a white reflector, this downlighter promises glare-free illumination for contemplative viewing or working. Also available in the all-black profile, these downlighters meld into the ceiling for a compact and minimal look.

ZEUS

SURFACED LED COB DOWNLIGHTER

Our Pollux series features an unmatched lamp life and seamless installation, thus making them a perfect choice for commercial spaces in need of focused lighting. Their linear rectangular canopy can be positioned to shine the recessed LED light exactly where it's needed. Believed to be a good omen for sailors, the glow personifying Pollux in greek myth makes a comeback with these gleaming downlighters. Showcasing a white reflector, this downlighter promises glare-free illumination for contemplative viewing or working. Also available in the all-black profile, these downlighters meld into the ceiling for a compact and minimal look.

COMET

LED BATTENS

Liner yet long profile that promises an even radiance, Comet marries minimalism with efficiency. Featuring an unmatched lifespan of over 30,000 hours with less heating, these outlive the conventional tube lights in many ways. Bringing in the beauty of flexibility, these architectural lights are available in warm white and cool white - maintaining the same brightness across their lifespan. True to their name, these embody the celestial tail of gas and light: they can be mounted to draw attention to the floating shelves scattered around the entertainment unit.

HERO

LED BATTENS

Slender profile that promises an even radiance, Hero marries minimalism with efficiency. Featuring an unmatched lifespan of over 30,000 hours with less heating, these outlive the conventional tube lights in many ways. Bringing in the beauty of flexibility, these architectural lights are available in warm white and cool white - maintaining the same brightness across their lifespan. True to their name, these are a great way to guide the eye when styled over a vanity mirror.

STAIRCASE LIGHTS

Home becomes a place of memory-keeping when hushed footsteps meet for a nocturnal trip to the fridge downstairs. We understand there is a shared mystery to the hidden moments. Our staircase lights with their motion sensors, let's you sneak about the home without disturbing others.

Our LED staircase lights offer energy efficiency, seamless look and smooth integration. Adding both beauty and softness, they are all about enhancing the homely feeling: assuring safety by promising visibility and enhanced spaces. Wash your stair treads in a pool of radiance emitted through an acrylic diffuser and a square or rectangular frame. Though a passage, take the effort to pick complementary lighting for this most frequent yet often ignored staircase.
